Dear Dr. Tole Sutikno,

Thank you so much for this results. We are so glad to hear that. We will do our best to revise and improve this manuscript to be adequate for publication in BEEI.

Best regards,

Joni Welman Simatupang, Ph.D  
Faculty Lecturer in Electrical Engineering Study Program  
President University, Cikarang, Bekasi-17550, Indonesia

Dear Prof/Dr/Mr/Mrs: Dr. Joni Welman Simatupang,

We have reached a decision regarding your submission entitled "Metamaterial and Metasurface Based Emitters for Solar Thermal Photovoltaic Applications: Analytical Review" to Bulletin of Electrical Engineering and Informatics, a Scopus(Elsevier)/ScimagoJR indexed journal, SNIP\* 2019: 1.358, CiteScore 2019: 1.3, SJR 2019: 0.231; and ACCREDITED (recognised) by the Ministry of Research and Technology/National Agency for Research and Innovation, Republic of Indonesia (Decree No: 60/E/KPT/2016). Beginning with issue 1 of volume 9 (2020), BEEI is published as a bimonthly journal (6 issues/year).

Our decision is: revisions required  
Please prepare your revised paper (in MS Word or LATEX file format) with considering Reviewers' comments and adheres every detail of the guide of authors (<https://iaescore.com/gfa/beei.docx>, or <https://iaescore.com/gfa/beei.rar> for LATEX file format), and check it for spelling/grammatical mistakes.

I look forward to receiving your revised paper as soon as possible (within 8 weeks)

Thank you

Best Regards,  
Dr. T. Sutikno

Editor, Bulletin of EEI

-

Pay attention to the following instructions carefully!

1). PLEASE ADHERE STRICTLY THE GUIDE OF AUTHORS !!

<http://iaescore.com/gfa/bee.docx> and pay attention to the checklist for preparing your FINAL paper for publication:

<https://bee.org/index.php/EEI/about/editorialPolicies#custom-3>

2). It is mandatory to present final paper in the sections structure "IMRAD style": 1. INTRODUCTION - 2. The Proposed Method/Algorithm/Procedure specifically designed (optional) - 3. METHOD - 4. RESULTS AND DISCUSSION - 5. CONCLUSION. See <http://iaescore.com/gfa/bee.docx>

3). Add biographies of authors as our template (include links to the authors' profiles, do not delete any icons in the template). It is mandatory!! See <http://iaescore.com/gfa/bee.docx>

--> Provide links for all authors to the 4 icons (Scholar, Scopus, Publons and ORCID)

4). Prepare all tables as our template (NOT as figure)

5). Use different PATTERNS for presenting different results in your figures/graphics (instead of different colors). It is mandatory!! Re-check all your figures. See <http://iaescore.com/gfa/bee.docx>

6). Please ensure that all references have been cited in your text. Use a tool such as EndNote, Mendeley, or Zotero for reference management and formatting, and choose IEEE style. Each citation should be written in the order of appearance in the text in square brackets. For example, the first citation [1], the second citation [2], and the third and fourth citations [3], [4]. When citing multiple sources at once, the preferred method is to list each number separately, in its own brackets, using a comma or dash between numbers, as such: [1], [3], [5]. It is not necessary to mention an author's name, pages used, or date of publication in the in-text citation. Instead, refer to the source with a number in a square bracket, e.g. [9], that will then correspond to the full citation in your reference list.

Examples of in-text citations:

This theory was first put forward in 1970 [9].

Zadeh [10] has argued that ...

Several recent studies [7], [9], [11]-[15] have suggested that....

... end of the line for my research [16].

We usually expect a minimum of  $2n+9$  references (for original research paper) and  $4n+13$  (for review/survey paper) primarily to journal articles, where  $n$ =page length of your papers (in simple words for 8 pages, number of references are min 25 for research papers, and 45 entries for review/study papers). Citations of textbooks should be used very rarely and citations to web pages should be avoided. All cited papers should be referenced within the text of the manuscript.

7). Please present all references as complete as possible and use IEEE style (include information of DOIs, volume, number, pages, etc). If it is available, DOI information is mandatory!! See

<http://iaescore.com/gfa/bee.docx>

Reviewer P:

Does the title of the paper accurately reflect the major focus contribution of this paper?:

If No, please suggest change of the title as appropriate within 10 words::

Is the abstract an appropriate and adequate digest of the work?:

Is the paper clear, concise, and well organized?:

If No, please suggest how should authors organize their paper::

Rate of the contribution strength to the field is represented in this paper:

Rate the scientific quality of the paper?:

Do authors place the paper in proper context by citing relevant papers?:

Is the paper free from obvious errors, misconceptions, or ambiguity? Is the paper written in correct English?:

If No, please note grammatical errors and suggest corrections:

Please mark appropite scale for the overall grade for this paper?:

Reviewer's comments and suggestions how to improve the paper. (If it is not possible, kindly please use separate sheets or a copy of the paper for comments and suggestions for revision. Indicate whether revisions are mandatory or suggested. Please use word processig type format if possible, and then upload in next step or submit via email: [tei@journal.uad.ac.id](mailto:tei@journal.uad.ac.id))

URGENT: Authors should consider all above items for prepraring their revision (and NOT only the below comments)
