Dear Prof. Veland,

I missed this email, so I just read this email. I am so sorry. So, what should I do for the next process? Btw, I see that this paper was also published in the ISCBE proceeding, so it was double published. Can we withdraw our article in the ISCBE proceeding?

Btw, I have recommended you to be the advisory board of ISCLO and SCBTII. I hope you are willing to participate. Thank you very much. Keep in touch

PROOFS OF PAPER FOR CHECKING

Title: Social characters as predictors of sociopreneurs' motivation

Dear Author

I attach the proofs of your paper for inclusion in the World Review of Entrepreneurship, Management and Sust. Development to be published by Inderscience Publishers.

Please check the paper and confirm acceptance or let me have any amendments/changes within 2 weeks of the date of this email.

If a previous version of your paper has originally been presented at a conference, please include a statement to this effect as follows or complete if already shown on your proof:

This paper is a revised and expanded version of a paper entitled [title] presented at [name, location and date of conference]

Please ensure that you send **ALL** amendments with your reply as it is unlikely that any further changes will be possible. You will be sent a final revised version to approve after your amendments have been incorporated.

Detailed requirements for the Abstract and Keywords can be found on the Inderscience website www.inderscience.com under Notes for Authors

- **Abstract:** approximately 100 words, maximum 150.
- **Keywords:** approximately 10-15 words or phrases.
Keywords are important for online searching. The Importance of Keywords. Metadata (title/author details/abstract/keywords) is a vital part of any paper, since, in our online world, it is the metadata which is freely available to all users and is sent to many and varied online sources, from which users undertaking online searches will trace the paper. If you want your paper retrieved by the maximum number of people, the metadata is vital. The **Keywords** field is essential in that this is the most frequently searched field if search results.
- Biographical notes: approximately 100 words per author, maximum 150.

With regards to keywords, please check that ALL the essential words/terms from the title and abstract are included; if more than 1 word, the words should be a phrase, not a description. Therefore, please check papers for:

- do the words/phrases in the title appear in the keywords – NO – then please add
- are there enough keywords in the field? (i.e., if there are only 2–3 keywords, then probably not – please expand)
- are there long phrases with 'of' and 'and' in them? (YES – then please re-format into key phrases).

Where applicable, the title of the journal should also appear in the keywords (e.g., for International Journal of Nanotechnology, 'nanotechnology' should appear in the keywords; for International Journal of Environment and Pollution, 'environmental pollution' would be the phrase to use. This is obviously more applicable to some journals rather than others.

To ensure the publication schedule is maintained and in the event of you not replying within this timescale, contact will be made with the Editor of the issue and it is possible that the paper will be held back from publication.

It is the policy of Inderscience

**Publishers
not to
publish any
papers
unless final
approval of
the edited**

copy has been obtained from the author.

May we ask you to indicate your amendments using one of the following:

- list the corrections/amendments in an MS Word file (see attached)
- list in an email and indicate the page number, paragraph number and/or line number one by one; copy a portion of the text that needs correcting so we can locate them making the implementation of corrections more accurate
- make annotations/sticky notes on the PDF.

If any figures appear in colour, please note that they will only appear in colour in the online version, but in the printed version, they will be in black and white.

If the quality of the colour figure supplied is not suitable to be produced in colour, it will only be shown in black and white in the online version. However, if colour is essential to the figure, please send a better quality colour image with your proof reply.

Where there is more than one author, please indicate who is the corresponding author if not already shown and kindly respond to any queries in the paper

Please note there is a very long waiting list for publication in this journal between 2–3 years.

Many thanks

Kind regards
