WEBCAM REAL-TIME IMPLEMENTATION OF AI BASED FACE DETECTION ATTENDANCE

By

Kevin David Hizkia Simangunsong
001201800101

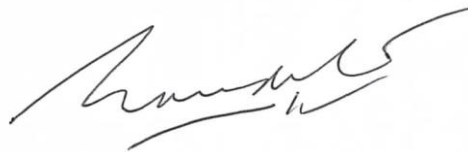

Approved:

Cutifa Safitri , Ph.D.
Thesis Advisor

Cutifa Safitry, Ph.D
Program Head of Information Technology

Rila Mandala, Ph.D.
Dean of Faculty of Computing

STATEMENT OF ORIGINALITY

In my capacity as an active student at President University and as the author of the final project stated below:

Name : Kevin David Hizkia Simangunsong

Student ID number : 001201800101

Study Program : Information Technology

Faculty : Computer Science

I hereby declare that my final project entitled “**WEBCAM REAL-TIME IMPLEMENTATION OF AI BASED FACE DETECTION ATTENDANCE**” is to the best of my knowledge and belief, an original piece of work based on sound academic principles. If there is any plagiarism detected in this final project, I am willing to be personally responsible for the consequences of these acts of plagiarism and will accept the sanctions against these acts in accordance with the rules and policies of President University.

I also declare that this work, either in whole or in part, has not been submitted to another university to obtain a degree.

KEVIN DAVID HIZKIA SIMANGUNSONG

SCIENTIFIC PUBLICATION APPROVAL FOR ACADEMIC INTEREST

As an academic community member of the President's University, I, the undersigned:

Name : KEVIN DAVID HIZKIA SIMANGUNSONG

Student ID number : 001201800101

Study program : Information Technology

for the purpose of development of science and technology, certify, and approve to give President University a non-exclusive royalty-free right upon my final report with the title:

“WEBCAM REAL TIME IMPLEMENTATION OF AI BASED FACE DETECTION ATTENDANCE”

With this non-exclusive royalty-free right, President University is entitled to converse, to convert, to manage in a database, to maintain, and to publish my final report. There are to be done with the obligation from President University to mention my name as the copyright owner of my final report.

This statement I made in truth.

KEVIN DAVID HIZKIA SIMANGUNSONG

ADVISOR APPROVAL FOR JOURNAL/INSTITUTION'S REPOSITORY

As an academic community member of the President's University, I, the undersigned:

Name : Cutifa Safitri
ID number : 20190900815
Study program : Information Technology
Faculty : Computing

declare that following thesis:

Title of thesis : **Webcam Real-Time Implementation of AI Based Face
Detection Attendance**
Thesis author : KEVIN DAVID HIZKIA SIMANGUNSONG
Student ID number : 001201800101

will be published in **journal / institution's repository / proceeding / unpublished.**

ABSTRACT

In a classroom setting during a presentation, keeping track of attendance is not just a difficult chore, but also one that takes a lot of time. There will always be a chance of proxy attendance because the lecture had an extremely high number of students in attendance. Conventional techniques of attendance recording have been difficult. The problem of face recognition is expanding because of the increasing demand for effective and automatic attendance marking methods. Standard biometrics like fingerprints and RFID tags have been widely used in recent years to address the issue of automatic attendance recording, but these methods lack the element of reliability. A face detection and identification algorithm-based automatic attendance marking, and management system is proposed for this project. This system's goal is to create an automated system that uses facial recognition technology to track student attendance in place of the existing techniques. The major goal of this effort is to improve the system for tracking attendance effective, convenient, and timesaving. Face recognition techniques will be used in this instance to identify faces. The picture is then compared to the already-stored record, and attendance will then be recorded in the database as appropriate. This technique lessens the workload of individuals when compared to the current system's traditional attendance marking system.

Stats

Average Perplexity Score: 3419.528

A document's perplexity is a measurement of the randomness of the text

Burstiness Score: 15331.129

A document's burstiness is a measurement of the variation in perplexity

Your sentence with the highest perplexity, "*Name : Cutifa Safitri*", has a perplexity of: 100956

ACKNOWLEDGEMENT

I'd want to convey my heartfelt gratitude to everyone who have always been supportive of me as

I worked on this final project:

1. I congratulate myself for working tirelessly on and completing this final project.
2. To my parents, who have always backed me up and prayed for me.
3. Mrs. Cutifa Safitri, thank you so much for agreeing to be my final project advisor.
4. All of my lecturers who have provided me with information over the last few years, and I am really glad to have been a student of all of them.
5. For my friends and friends who always pray for me and support me in any situation, I express my gratitude.
