STATEMENT OF ORIGINALITY

In my capacity as an active student at President University and as the author of the thesis/final project/business plan stated below:

Name : Kostenivka Sisilia Mogi

Student ID number : 00120200059

Study Program : Informatics

Faculty : Computing

I hereby declare that my final project entitled "*Implementation of Haversine Formula to Determine the Distance Between Cafe Location and User Location to Find the Nearby Cafe Based on User Location Web Based*" is to the best of my knowledge and belief, an original piece of work based on sound academic principles. If there is any plagiarism detected in this thesis/final project/business plan, I am willing to be personally responsible for the consequences of these acts of plagiarism and will accept the sanctions against these acts in accordance with the rules and policies of President University.

I also declare that this work, either in whole or in part, has not been submitted to another university to obtain a degree.

SCIENTIFIC PUBLICATION APPROVAL FOR ACADEMIC INTEREST

As an academic community member of the President's University, I, the undersigned:

Name : Kostenivka Sisilia Mogi

Student ID number : 00120200059

Study program : Informatics

for the purpose of development of science and technology, certify, and approve to give. President University a non-exclusive royalty-free right upon my final report with the title:

Implementation of Haversine Formula to Determine the Distance Between Café Location and User Location to Find the Nearby Cafe Based on User Location Web Based

With this non-exclusive royalty-free right, President University is entitled to converse, to convert, to manage in a database, to maintain, and to publish my final report. There are to be done with the obligation from President University to mention my name as the copyright owner of my final report. This statement I made in truth.

Cikarang, 14 August 2022

Kostenivka Sisilia Mogi

ADVISOR APPROVAL FOR JOURNAL/INSTITUTION'S REPOSITORY

As an academic community member of the President's University, I, the

undersigned: Name : Rosalina, S. Kom., M. Kom

ID number :

Study program : Informatics

Faculty : Computing

declare that following thesis:

Title of thesis : *Implementation of Haversine Formula to Determine the Distance Between Cafe Location and User Location to Find the Nearby Cafe Based on User Location Web Based*

Thesis author : Kostenivka Sisilia Mogi

Student ID number 00120200059

will be published in **journal / institution's repository / proceeding / unpublish.**

Stats

Average Perplexity Score: 68.667

A document's perplexity is a measurement of the randomness of the text

Burstiness Score: 89.700

A document's burstiness is a measurement of the variation in perplexity

Your sentence with the highest perplexity, "Thesis Advisor Cutifa Safitri, M.Sc., Ph.D.", has a perplexity of: 409

ABSTRACT

Technological developments are increasingly rapidly affecting the lifestyle of today's society. Especially in the field of food and beverages. Nowadays, apart from being a place to eat and drink, cafes also provide entertainment for the convenience of customers, and of course cafes are used as a place to do conversation, do work, and relax. Currently, there are many cafés that have been established. This makes many people confused in terms of choosing a café to visit. The problem is that the user wants to know the location of the café including the distance to the café. Sometimes, a new user wants to know the information about the cafe. This application aims to make café recommendations based on the shortest distance using the haversine formula to calculate the distance between the user's location and the café's location. The results of this study indicate that this application is successful in terms of helping users to find out the shortest café around them, and this application can help users to get information about the details of the cafe they want.

Keywords—Café Recommendation, Haversine Formula, Latitude, Longitude

DEDICATION

This thesis is dedicated to my parents, my entire family, my friends, and the person closest who has always supported me.

I would also like to dedicate this thesis to President University, as a place where I gain knowledge, skills, friends and develop myself.

ACKNOWLEDGMENTS

First and foremost, I want to express my gratitude to God and Mother Mary, for all the love, mercy, and blessing that have been given to me until this day.

I acknowledge that this thesis cannot be completed without the assistance and guidance of multiple parties. Therefore, I would like to take this opportunity to convey my gratitude to:

1. I am grateful my parents, Mama, and Papa, for always giving me the best. Especially for all your support and hard work during the educational process. Hopefully, finishing this thesis will be a source of pride for you. Thankyou also to all the family my grandparents, brother, aunt, uncle, and all who always support me.
2. I also want to thank you to my thesis advisor Mam Rosalina, S.Kom., M.Kom. Thank you for all the kindness, support, assistance, and time that has been given during the writing of this thesis.
3. For students with id 014201900027, thank you for always providing me with support and assisting me throughout the process of writing this thesis
4. I would also like to thank you to my friends for their consistent support and encouragement throughout the completion of this thesis.
5. I would like to thank everyone who has helped, support, and encouragement in the process of completing this thesis.
