STATEMENT OF ORIGINALITY

In my capacity as an active student at President University and as the author of the thesis/final project/business plan listed below:

Name	: Muhammad Syahir
Student ID number	: 012201900013
Study Program	: Information System
Faculty	: Computing

I declare that my thesis/final project/business plan is legitimate **" DEVELOPMENT OF WEB BASED INFORMATION SYSTEM FOR HAJJ AND UMROH TRAVEL IN PT. MUTIARA CINTA IMANI"** is to the best of my knowledge and belief, an original piece of work based on solid scientific principles. If plagiarism is found in this thesis/final project/business plan, I agree to be personally responsible for the consequences of those acts of plagiarism and accept sanctions for such acts in accordance with the rules and policies of the President University.

I also declare that this work, in whole or part, has not been submitted to any other university for the purpose of obtaining a degree.

SCIENTIFIC PUBLICATION APPROVAL FOR ACADEMIC INTEREST

As an academic community member of the President University, I, the undersigned:

Name : Muhammad Syahir
Student ID Number : 012201900013
Study Program : Information System

I certify and authorize granting the Chancellor a non-exclusive, royalty-free right to my final report for the purpose of advancing science and technology:

DEVELOPMENT OF WEB BASED INFORMATION SYSTEM FOR HAJJ AND UMROH TRAVEL IN PT. MUTIARA CINTA IMANI

This non-exclusive, royalty-free right grants President University the right to converse, convert, manage in the database, maintain, and publish my final report. This is to address the President University's obligation to mention my name as the copyright owner of my final report.

This statement I made is true.

ABSTRACT

A Management Information System (MIS) is a system that collects, processes, stores, and disseminates information to support decision-making, coordination, control, and analysis in an organization. In our time, MIS has become increasingly important due to the growth of information technology and its impact on productivity in both public and private organizations.

For that, a travel company must also adjust to utilizing a management system like the Hajj and Umrah applications. The Mutiara Cinta Imani Application is an application that can help Hajj and Umrah business owners along with admins and staff to gather data on participants who will participate in performing Umrah and Hajj with PT Mutiara Cinta Imani, which can make it easier for admins and staff to accumulate data on these departures. This application can show the total participant data, such as full name, father's name, grandfather's-name, Resident Identity Card (KTP), Passport Number, gender, etc. Then this application can make it easier for staff to add Umrah participant data, view Umrah participant data, make an Update to Umrah participant data, and delete Umrah participant data. Of course, this application also provides a search bar that can make it easier for staff to sort and search data using data according to the date of departure, name, gender, etc.

A travel agency can use a management information system to help manage and organize their business travel. A travel management system can automate many tasks, such as tracking, and analyzing business travel, this can help improve operations management and make life easier for travel managers.

Keywords: Hajj, Umroh, Management, Business, MIS.

DEDICATION

This Final Project is dedicated to myself and my loving parents,

who have always supported me throughout my academic career.

I want to dedicate this final project to my Information System 2019 teammates,

President University, and my friends who have always supported me.

Readers and future researchers will hopefully benefit

from the research I completed.

ACKNOWLEDGMENTS

I would like to thank my gratitude to Allah SWT because of His Grace the author can complete the Final Project. I wrote this Final project titled “Development of Web Based Information System for Hajj and Umroh Travel in PT. Mutiara Cinta Imani” as a student with a graduation requirement to complete a final project.

For me, life on this campus has its own color and I can learn how to be strong in the future. For this reason, I would like to express my gratitude to:

1. My Family, who always give me direction and motivation to move forward to create something better in the future and who always pray for me no matter the circumstances.
2. Mrs. Rosalina as my final project supervisor who is always ready to provide direction and support from beginning to end.
3. To all computing lecturers who have provided the best experience and teaching for their efforts. Who give valuable knowledge to me during studying in president university.
4. All my Friend, Husein, Yusuf, Hany, Joy, Dafa, and all other parties that have been a constant reminder to keep spirits up and work together to overcome all these challenges.
