JANUARY, 2023

PANEL OF EXAMINER APPROVAL

The Panel of Examiners declare that the undergraduate thesis entitled **WEB-BASED EMPLOYEE GEOLOCATION ATTENDANCE SYSTEM IN PT. XYZ** that was submitted by Aurelia Oktania majoring in Information System from the Faculty of Computing was assessed and approved to have passed the Oral Examination on 26th January 2023.

Panel of Examiner

.....

Abdul Ghofir, S.Kom., M.Kom.

.....

Genta Sahuri, S.Kom., M.Kom.

STATEMENT OF ORIGINALITY

In my capacity as an active student of President University and as the author of the undergraduate thesis/final project/business plan (underline that applies) stated below:

Name : Aurelia Oktania
Student ID number : 012201900023
Study Program : Information System
Faculty : Computing

I hereby declare that my undergraduate thesis/final project/business plan entitled "**WEB-BASED EMPLOYEE GEOLOCATION ATTENDANCE SYSTEM IN PT. XYZ**" is, to the best of my knowledge and belief, an original piece of work based on sound academic principles. If there is any plagiarism, including but not limited to Artificial Intelligence plagiarism, is detected in this undergraduate thesis/final project/business plan, I am willing to be personally responsible for the consequences of these acts of plagiarism, and accept the sanctions against these acts in accordance with the rules and policies of President University.

I also declare that this work, either in whole or in part, has not been submitted to another university to obtain a degree.

Cikarang, 26th January 2023

SCIENTIFIC PUBLICATION APPROVAL FOR ACADEMIC INTEREST

As a student of the President University, I, the undersigned:

Name : Aurelia Oktania
Student ID number : 012201900023
Study program : Information System

for the purpose of development of science and technology, certify, and approve to give President University a non-exclusive royalty-free right upon my final report with the title:

WEB-BASED EMPLOYEE GEOLOCATION ATTENDANCE SYSTEM IN PT. XYZ

With this non-exclusive royalty-free right, President University is entitled to converse, to convert, to manage in a database, to maintain, and to publish my final report. There are to be done with the obligation from President University to mention my name as the copyright owner of my final report.

This statement I made in truth.

Cikarang, 26th January 2023

Aurelia Oktania

ADVISOR'S APPROVAL FOR PUBLICATION

As a lecturer of the President University, I, the undersigned:

Advisor's Name : Rosalina, S.Kom., M.Kom.

NIDN : 0426068404

Study program : Information System

Faculty : Computing

declare that following thesis:

Title of undergraduate thesis : **WEB-BASED EMPLOYEE GEOLOCATION
ATTENDANCE SYSTEM IN PT. XYZ**

Undergraduate Thesis author : Aurelia Oktania

Student ID number : 012201900023

will be published in **journal / institution's repository / proceeding / unpublish.**

ABSTRACT

Attendance management is an essential part of any organization. The information acquired through the attendance management reporting manner helps in determining whether an organization is on the correct path and progressing toward a prosperous future. The staff is such a valuable resource that a company should know how to maintain track of their attendance and time. Monitoring attendance allows a corporation to understand which employees arrive on time, early, or consistently late.

A Web-Based Employee Geolocation Attendance System was developed in this final project to track employee attendance regardless of where they are assigned. Each employee's location can be determined using a smartphone and GPS. The developed system can assist companies in monitoring employee attendance, collecting attendance history data, and visually analyzing data. The system was created using Agile Methodology, a software development methodology that aims for the continuous delivery of working products in short iterations. This project will be built using the database programming languages ASP.NET, VB, and SQL Server.

ACKNOWLEDGEMENTS

First and foremost, I want to thank God Almighty for all of His blessings and guidance, especially throughout my time at President University.

I am also grateful towards the following individuals and groups for their assistance and support:

1. My parents and my brother for their undying support and unwavering belief.
2. Rosalina, S.Kom., M.Kom., my thesis advisor, who has always been supportive and generous with her time in helping me finish this final project.
3. All of the lecturers who have educated me and imparted information while I was a student at President University.
4. All of the computing students, notably the class of 2019, who encouraged and assisted me during my studies.
