ABSTRACT

The implementation of PSAK 73, a new accounting standard, has had a major impact on the debt management practices and financial performance of telecommunications companies listed on the Indonesia Stock Exchange between 2019-2022. This research explores the multifaceted relationship between PSAK 73 compliance and its impact on the financial health of these companies. PSAK 73, which discusses debt modification and eliminations, has forced telecommunications companies to reevaluate their debt management strategies

This research investigates how the implementation of PSAK 73 affects the debt restructuring decisions of these companies, such as debt refinancing, conversion, and forgiveness, as well as the subsequent impact on their financial statements. This study analyzes key financial metrics, such as liquidity ratios, profitability, and overall financial performance, to determine whether the implementation of PSAK 73 has resulted in improvements or challenges. The findings of this research will provide valuable insights for telecommunications companies and investors, helping them understand the implications of accounting standards on debt management and financial performance in a given industry and time period.

Penerapan PSAK 73, sebuah standar akuntansi baru, telah memberikan dampak besar terhadap praktik pengelolaan utang dan kinerja keuangan perusahaan telekomunikasi yang terdaftar di Bursa Efek Indonesia antara tahun 2019 dan 2022. Penelitian ini mengeksplorasi hubungan multifaset antara kepatuhan PSAK 73 dan dampaknya terhadap kesehatan keuangan perusahaan-perusahaan ini. PSAK 73, yang membahas modifikasi dan penghapusan utang, telah memaksa perusahaan telekomunikasi untuk mengevaluasi kembali strategi pengelolaan utang mereka.

Penelitian ini menyelidiki bagaimana penerapan PSAK 73 mempengaruhi keputusan restrukturisasi utang perusahaan-perusahaan tersebut, seperti pembiayaan kembali utang, konversi, dan pengampunan, serta dampak selanjutnya terhadap laporan keuangan mereka. Studi ini menganalisis metrik keuangan utama, yaitu rasio likuiditas, profitabilitas, dan kinerja keuangan secara keseluruhan, untuk menentukan apakah penerapan PSAK 73 telah menghasilkan perbaikan atau tantangan.
