ABSTRACT

In this paper, it will be discussed on how the implementation of telemedicine and digital healthcare in Indonesia is compared to United Kingdom in 2019-2022 and whether globalization truly plays a huge role on leveling the field in digitalizing healthcare in UK as a developed country and Indonesia as a developing country. Through this throughout view, we can see how each country behave and develop in their own digitalization process and whether globalization provide a level-playing field for both developed and developing countries by looking at each country's individual history of telemedicine itself and the growth it experienced especially during the COVID-19 Pandemic, each country's regulation, law, and ethics are also needed plus objective of each country regarding the digitalization of their healthcare as. The head start that developed countries have, does not equal to faster progression and development. While COVID-19 pandemic acts as a catalyst to further the digitalization of their own healthcare in which both countries have their own issues and obstacles to tackle with as globalization in some way, does contribute to leveling the playing field between the developed and developing countries.

Keyword: globalization, COVID-19, telemedicine, digital healthcare

ACKNOWLEDGMENT

First of all, I would like to express my gratitude towards Allah Subhanahu Wa Ta'ala for the health, strength, and well-being given to complete this thesis as one of the requirements for me to obtain undergraduate at President University. I would also like to express my gratitude to both ms Isyana Adriani, BA., M.Si for the guidance towards this journey as well as both sir Muhammad Sigit Andhi Rahman, Ph. D and sir Riski M. Baskoro, S.Sos., Ma. For both the critics and feedback as my oral thesis defence examiners.

I would also thank sir Anggara Raharyo, S.I.P., M.P.S who definitely helped to lay out the basis of my thesis as well as motivate my eagerness to pursue the topic. A big amount of gratitude to sir Nanda Pradhana Suprpto as one of my biggest motivator throughout my undergraduate career, his contribution as help towards my study has been one of my biggest gratitude.

The last but not least, I would also thank my parents who have been supporting me to achieve this degree, as well as brother and friends who helped create another meaningful journey and a story to tell in the future which made me able to move to the next part of life
